

Chemical Dosing Tanks Bund Tanks

- * **Wide Range of Sizes 50 - 1000 Litres**
- * **Manufactured in UV Stabilised M.D.P.E.**
- * **Large Screw Fitting Lids**
- * **Split Level Top**
- * **Graded Scale Of Contents**
- * **Colours Natural or Black**
- * **One Piece Moulding**
- * **Designed for The WT & ET Industry**
- * **Bund Tanks Hold 110% of Dosing Tank Capacity**
- * **Bund Tanks Are Stackable**
- * **Cost Efficient**

The AWE range of Chemical Dosing Tanks are specially designed for the water and effluent treatment industry. The tanks are rotationally moulded in natural or black MDPE with smooth internal and external surfaces.

Each tank has a graduated scale of chemical contents and is supplied with a large diameter black screw fitting lid. For safety. The split level design provides an area for mounting pumps, mixers and level sensors, strengthening plates and mixer bridges can be provided for mounting heavy items.

Blue Bund Tanks For use with our chemical dosing tanks designed to hold 110% of the chemical dosing tank capacity manufactured from blue MDPE. Tanks to be mounted on tank stands should be installed in the next larger size bund.

As the tanks are rotationally moulded some shrinkage occurs during cooling. As a result of this shrinkage the dimensions may vary by $\pm 1\%$ of the listed dimensions.

Specifications

Tanks & Bunds

Tanks

Material	UV Stabilised MDPE
Colour	Natural or Black
Max. Temperature	35°C
Standard sizes	50, 100, 200, 300, 500 or 1000 litres
Accuracy	± 2% of stated sizes

Bunds

Material	UV Stabilised MDPE
Colour	Natural
Max. Temperature	40°C
Size	110% of tank capacity
Accuracy	± 2% of stated sizes.

Dosing Tank Technical Specifications

Part No	Dimensions Dia x Hight		Capacity litres	Cap Size mm	Aperture Size mm	Weight kg.
	mm	Inches
