

Model OX25-K Portable DO² Meter Kit

- % Saturation & mg/L (ppm)
- * Temperature Readout in °C
- * Large Digital Display
- * Auto Temp Compensation
- * Supplied with DO² Electrode
- * Supplied with Carrying Case
- * Simple Operation
- * Small Dimensions
- * Long Battery Life
- * Cost Effective
- * Ex Stock Deliveries

OX25 Portable Dissolved Oxygen & oC meter kit features an easy to read 12.5 mm high LCD display. The instrument is able to read dissolved oxygen in either percentage saturation or concentration in mg/L (ppm). Automatic temperature compensation is provided by thermistors in the probe.

Temperature maybe measured with the stainless steel temperature sensor P/No ST11

The display has a low battery indicator; the case size is 145 x 90 x 39 mm with a low weight of only 400 grms.

The model OX25 portable DO2 meter is supplied as a kit, which comprises of a leather carrying case, 023-IP polargraphic (clarke) dissolved electrode with a 3' cable and connector. ST11stainless steel temperature sensor with 3' cable and connector.

When either the percentage saturation or concentration in mg/L (ppm) range is selected the temperature compensation is automatic by the built thermisters inside the dissolved electrode.

The ST11 stainless steel sensor is required for temperature measurement.

The OX25-K portable dissolved Oxygen meter kit is a cost effective simple to use and easy to calibrate analogue portable dissolved oxygen and temperature meter.

Applications include industrial waste water treatment plants inlet

and discharge monitoring. Activated sludge plant monitoring. Aquaculture monitoring the oxygen levels in fish farms ponds and lakes. Education used for monitoring the Dissolved Oxygen in laboratories and out on field trips.

Ordering Information

OX25-K Portable DO2 Meter & sensor kit

023 - IP3 Polargraphic DO2 Sensor clarke type.

ST11 Stainless steel temperature sensor

MBK-KCL Spare Membrane and filling solution

Z-Sol Zero Solution sodium sulphite

CC1 Carrying Case

Specifications

OX25 Portable DO² / °C Meter

Range Saturation 0 to 200 % sat

0 - 19.9 ppm (mg/L). Range Concentration

Range oC -50oC to +150 oC

Resolution 1% or 0.1 ppm (mg/L)

0.1oCTemperature

±2% of full scale or 0.5oC Accuracy DO2

Accuracy Temperature 0.5 oC

Automatic 0 - 40°C. Temp Comp

Calibration Span & zero

Readout 12.5mm LC Display 3.5 digits

Power requirements One 9 Volt PP3 Alkaline battery

LOBAT displayed on readout Battery indicator

> 200 hours continuous Battery life

145 x 80 x 38. L x W x H **Dimensions**

Weight 400 grams.

Warranty One year (excluding sensors).
